

We have happily been providing quality web hosting since 2015, but times have changed and we are simply not profitable anymore. I have decided that it is in everyone's best interest to sell Gweb Hosting to a leading hosting company in South Africa. I am proud to announce that Gweb Hosting has been acquired by Host Africa (Pty) Ltd trading as HOSTAFRICA, effective 1 March 2020.

HOSTAFRICA is a South African web hosting company leading in Cloud and Virtual Private Server solutions. I have the utmost confidence in Michael Osterloh, HOSTAFRICA's Founder and Managing Director. I believe you will be in the best hands as I step down and pursue other avenues in life.

You can rest assured your current service package prices will remain unchanged in a price lock for 1 year to allow you time to settle in.

### **What do customers benefit from**

HOSTAFRICA is an established hosting business with more than 15 years of experience. Client support and service hours are also available 24/7.

Their cloud server technology offers greater stability and speed, and servers are located in certified Data Centres in South Africa and around the world.

HOSTAFRICA offers an extensive and diversified service portfolio to choose from. Services include VPS and Cloud Servers, Domains, CMS and eCommerce Hosting, Web Security, Online Backup and reselling of most of these.

### **What will change?**

All Gweb Hosting customers will operate under the legal entity Host Africa (Pty) Ltd. Gweb Hosting WHMCS Customer Portal will be migrated to HOSTAFRICA's. Phone support will be transferred to HOSTAFRICA's.

The online payment gateway will change to PayFast. Please note the new banking details:

Pay To:  
Host Africa (Pty) Ltd  
Bank: Standard Bank  
Account: 281970777  
Branch: 014637
